To: Dr. J. Monod
Institut Pasteur
28 rue du Dr. Roux
Paris XV^e France

The following cultures are enclosed ~~per your request dated~~

W-2417

M- "Cst+" Lac_{4b}⁻ (tentative). The Lac⁻ is epistatic to Cst+
and is, as far as we can determine and "absolute negative",
worthwhile to test for Pz.

W-478

These cultures have been taken from stock and may not have been recently
checked. Please notify me of any difficulties or untoward behavior.
For future reference, I would appreciate your preserving the designations
of these cultures in your records.

Esther & Joshua Lederberg
Associate Professor of Genetics
